

Over the coming months,
ink could prove to be
very powerful medicine,
as California's governor,
senators and Assembly
members work to write a
health care reform bill
that could potentially
improve millions of lives.

At Catholic Healthcare West,
we view access to quality
health care as a basic human
right. So we strongly encourage
our lawmakers' efforts, and
offer our continued assistance
in their search for the cure our
state so desperately needs.

Catholic Healthcare West is California's largest not-for-profit hospital system. We are sponsored by seven congregations of women religious. Our 50,000 employees and 8,500 physicians provide quality health care at 42 hospitals in California, Arizona, and Nevada. chwHEALTH.org
